

## **My Professional Statement**

### **K. Wickenson Moise**

I am a dedicated Cybersecurity Professional with a foundational background in Computer Science and over 10 years of experience in IT infrastructure and system administration. My career is defined by a commitment to **proactive defense** and a value for **securing critical digital assets**.

With a technical toolkit that includes **Network Security, Risk Mitigation, and System Troubleshooting**, I specialize in identifying anomalies before they escalate into breaches. Having earned the **Google Cybersecurity Professional Certificate** and **CompTIA A+** specialization with **IBM**, and currently advancing my skills through **HarvardX (CS50)**, I am well-positioned to support organizational security goals by reducing the attack surface of diverse operating environments.

I am driven by the challenge of evolving threats and aim to leverage my "security-first" mindset to help organizations maintain operational resilience and protect the integrity of their information.
