

K. WICKENSON MOISE *Cybersecurity Program Professional | Network Security | Risk Mitigation* - | Nanuet, NY | +1 (845) 281-1914 | kenleywm@gmail.com

SUMMARY Dedicated IT professional with over 10 years of experience. Expert in infrastructure, network administration, and system maintenance across Windows, macOS, and Linux. Committed to a career in digital defense as an **Entry-Level Cybersecurity Analyst**, leveraging a strong technical background in threat detection and incident response.

PROFESSIONAL EXPERIENCE

UN & International Organization for Migrations (IOM) | Network Consultant | 2020 – 2021

- Designed core network architecture for seven border police stations, implementing LAN/WAN segmentation (VLANs) and subnetting to enhance security.
- Performed network performance tuning and troubleshooting to ensure 24/7 operational availability.
- Researched and recommended hardware solutions including firewalls and routers to protect data integrity.
- Created comprehensive network documentation and led secure data migrations with zero data loss.

J/P Haitian Relief Organization | IT Support Officer | 2015 – 2018

- Maintained Confidentiality, Integrity, and Availability (CIA) for organizational data across multiple sites.
- Resolved an average of 50 support tickets monthly with a 98% satisfaction rate, focusing on system uptime.
- Implemented robust backup and recovery strategies to prevent data loss and mitigate risks.
- Provided user training on security best practices, specifically focusing on phishing attack prevention.

DIGICEL - ALO COMMUNICATION | IT Informatique | 2014 – 2015

- Managed end-to-end retail IT systems across 21 stores, supporting 130+ users and reducing downtime by 35%.
- Secured and optimized network devices (routers, switches, Wi-Fi) and database administration (MySQL).
- Conducted hardware/software deployments for new store openings, ensuring rapid, secure business readiness.

CERTIFICATIONS (PROFESSIONAL DEVELOPMENT) & EDUCATION

- **CS50's Web Programming and JavaScript (HarvardX)**: Git, Python, Django, JavaScript, SQL Models, and Migration, Testing CI/CD, Scalability and Security (In Progress).
- **Google Cybersecurity Professional Certificate**: SIEM tools (Chronicle, Sentinel), SOC, IDS/IPS, Python, Linux, and SQL.

- **SQL and Relational Databases:** DB0101EN
- **IBM CompTIA A+ Specialization:** Troubleshooting, Active Directory, and mobile device security.
- **Master's Degree in Computer Science,** Ecole Supérieur Infotronique D'HAITI (ESIH).
